Transform AI to value.

Tender Manager

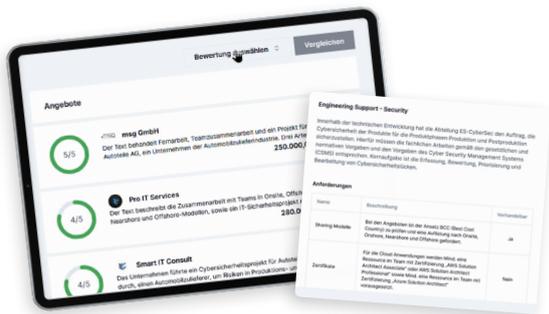

Evaluating offers efficiently:
AI simplifies the tendering process

Forget about the manual chaos – welcome to the future of tendering.

The msg Tender Manager takes your entire tendering process to the next level. Gone are the days of spending countless hours comparing and analyzing intricate documents – the process is now intelligent, swift, and straightforward. Our AI technology allows you to seamlessly compare offers, contracts, or general terms and conditions according to specific KPIs. And the most remarkable aspect? With a single click, you receive immediate rankings and comprehensive analyses at your fingertips.

The Tender Manager creates more transparency in your tendering process. The clear presentation of the comparison criteria allows you to understand at any moment how the rankings are determined. The direct comparison of the tenders allows for the best offers to be readily identifiable at first glance.

The msg Tender Manager offers you a significant increase in efficiency. This way, you not only save time but also costs.

Time savings using tender solution per year

Benefits at a glance:

- Concise comparison by direct comparison of the tender criteria
- Quick analysis of large and complex collections of data
- AI-assisted quality assessment of offers
- Automated comparison of complex documents according to definable KPIs
- Short summary of the analyzed documents

The Tender Manager can be seamlessly integrated into your tender portal. With standardized APIs, the Tender Manager is directly integrated into the workflow of your awarding platform. This way, you benefit from scalable computing power, faster data processing and highest security standards.
